The Crusader Borealis is a new model for 2021, which has a ton of new interior design features and an all-new Alde heating system. This new twin-axle is a bit of a show-stealer within the Elddis line up and we may see a lot more of these vans come the new year.

Exterior

Elddis has brought a real head turner to the market with this 2021 model. The exterior colour – matt grey – makes this van stand out from most you'll come across on site.

Ensuring that you can use this van all year round, Elddis has used Grade III thermal insulation for guaranteed all-weather comfort.

From the outside, this caravan looks extremely smart and we are very much on board with how many new vans are using different coloured exterior shells. It is refreshing to see caravans being made in different colours and I am sure this will appeal to younger buyers too.

Another great feature is the new Kromex badges, which show off the strong branding Elddis incorporates into all of its leisure vehicles.

Features
